

I would like to voice my opposition to NAB's petition 04-160. As a paying subscriber of XM Radio, I should be able to hear whatever material XM Radio provides (subject to my own decision as to whether or not it is appropriate for me and my family). It should NOT be up to the National Association of Broadcasters as to whether XM Radio should be allowed, or not allowed, to offer any particular type of content.

I support XM Radio's ability to offer whatever type of programming they feel meets their customers' needs and wants.
